

COMPANY PROFILE

G. D. Metsteel Pvt. Ltd. has a legacy since 1984 and originated its first fully automatic continuous structural steel rolling mill in Yavat, Pune under the brand name "G D MALHOTRA".

The company manufacturer an extensive range of structural steel products of MS which mainly includes Angles, Channels, Flats, Beams, Bars & Serrated Flats sections. The single mill grown to three and the company's infrastructural strengths today include an induction furnace and a fully integrated testing lab. 16" & 10" automatic mill with 25 mtr reheating furnace, coal plant and 6 stands, a cooling bed of 160' x 12' and two shearing machines to cut 2" plates.

Our organisation has distinguished itself as a quality conscious entity from its very inception, constant modernisation and upgradation has seen. The G D MESTSTEEL grow into a preferred brand with an array of clientele comprising both private and public sector companies like construction industry especially for building, land development projects, infrastructural projects, government projects, transmission towers, automotive components and systems etc. We would like to inform you that we are approved by many organisation like ISI, BIS, QRO etc.

With its high quality, speedy production and robust logistical capabilities, G D METSTEEL products provide elemental support to several large industrial and infrastructural developments across Maharashtra.

Structural Steel Rolling Mill

Brand Name: G D MALHOTRA

GDMSPL has done a joint venture with **Roop Rajat Steel Pvt. Ltd.** who are the **billets** manufacturer situated at Alandi - Markal Road Pune, having 12MT Furnaces.

Furnace Operation for Billet Formation

MS Billets Formation

We have listed our wide range of products of **E250 A Grade** for your kind consideration.

MS Angles Equal Distance

Sr.No	Sizes (L x W x T) (mm)	Wt.(Kg) / Ft.	Wt. (Kg) / Mtr.
1	25 x 25 x 5	0.50	1.80
2	35 x 35 x 4	0.60	2.10
3	35 x 35 x 5	0.80	2.60
4	40 x 40 x 4	0.70	2.40
5	40 x 40 x 5	0.90	3.00
6	40 x 40 x 6	1.10	3.50
7	45 x 45 x 5	1.00	3.40
8	50 x 50 x 4	0.90	3.00
9	50 x 50 x 5	1.20	3.80
10	50 x 50 x 6	1.40	4.50
11	65 x 65 x 5	1.50	4.90
12	65 x 65 x 6	1.80	5.80
13	65 x 65 x 8	2.40	7.70
14	65 x 65 x 10	2.90	9.40
15	75 x 75 x 6	2.10	6.80
16	75 x 75 x 8	2.70	8.90
17	75 x 75 x 10	3.40	11.00
18	90 x 90 x 6	2.50	8.20
19	90 x 90 x 8	3.30	10.80
20	90 x 90 x 10	4.10	13.40
21	90 x 90 x 12	4.80	15.80
22	100 x 100 x 6	2.80	9.20
23	100 x 100 x 8	3.70	12.10
24	100 x 100 x 10	4.50	14.90
25	100 x 100 x 12	5.40	17.70

MS Channels

Sr.No	Sizes (L x W) (mm)	Wt.(Kg) / Ft.	Wt. (Kg) / Mtr.
1	70 x 35 (L)	1.30	4.20
2	75 x 40 (L)	1.65	5.45
3	75 x 40 (M)	1.95	6.40
4	75 x 40 (H)	2.20	7.10
5	100 x 50 (L)	2.67	8.80
6	100 x 50 (H)	2.90	9.56
7	125 x 65 (H)	4.00	13.10
8	150 x 75 (H)	5.10	16.80
9	200 x 75 (H)	6.80	22.30
(L): Light, (M): Medium, (H): Heavy Weight of Sections.			

MS Beams (I Section)

Sr.No	Sizes (L x W) (mm)	Wt.(Kg) / Ft.	Wt. (Kg) / Mtr.
1	100 x 50 (L)	1.60	5.25
2	125 x 70 (L)	2.60	8.60
3	150 x 75 (L)	4.00	13.10
4	150 x 75 (H)	4.60	15.00
5	200 x 100 (H)	7.40	24.20
(L): Light, (M): Medium, (H): Heavy Weight of Sections.			

MS Round Bar

Sr.No	Sizes (OD) (mm)	Wt.(Kg) / Ft.	Wt. (Kg) / Mtr.
1	10	0.19	0.62
2	12	0.30	0.90
3	16	0.50	1.60
4	20	0.80	2.50
5	25	1.20	3.90

MS Serrated Flats

Sr.No	Sizes (L x T) (mm)	Wt.(Kg) / Ft.	Wt. (Kg) / Mtr.
1	25 x 4	0.24	0.79
2	25 x 5	0.30	0.98

QUALITY ASSURANCE

The brand equity we have earned in the market is the direct result of our focus on quality. Excellence has always been our watchword, from the establishment of the first fully automatic steel rolling mill, in 1984, to our policy of continuous improvement in process and product. Our Research and Development team is constantly innovating engineering solutions within our manufacturing facilities that have consistently yielded faster, better, and safer production processes. Our modern manufacturing facility at Yavat houses a state of the art laboratory with the latest testing equipment, such as a spectrometer and a UTS machine.

LAB TESTING

UTLIMATE TENSILE STRENGTH TESTING

Our strategy of backward integration, which includes the acquisition of a billet manufacturing unit, is another aspect that allows us greater control over the manufacturing process, every batch of billets is tested for composition, quality and random tests are also conducted throughout the production process. A dedicated Quality Control team ensures compliance with IS 2062 Grade A production. Our holographic MILL TEST Certificate assures buyers of the quality of the product. To further build customer confidence our QA policy welcomes third party inspections of our plant as well as materials.

LOGISTICS SUPPORT

With demand for G D MALHOTRA steel growing across Maharashtra, the setup of our own in-house transportation department was an inevitable progression. Today, over more than 80 trucks carry steel to various corners of the state, quickly and cost-effectively. Our transportation facilities empower us to offer just-in-time deliveries to our clients, so they can minimise costs in warehousing and inventory. Logistics is the backbone of any business and we make sure that it remains as strong as the steel we manufacture and empowers our clients with a rewarding output.

Corporate Office:
Office No – 401, Majestique City Views
Seven Loves Chowk, Opposite Apsara Talkies
Gultekdi, Pune – 411037. Maharashtra.
